  - Teamwork
  - Time and Tasks Management
  - Problem solving
  - Respect
  - Honest

PROFILE

- Full Name : Pich brak
- Place of birth : Kompong Spue
- Date of birth : 12, April, 2004
- Sex : Female
- Nationality : Khmer
- Status : Single

WORK EXPERIENCE

School Projects

Web Design Project(Online Shop)
Role: Lender Team | 21st Oct 2024 – 3rd Nov 2024
- Developed main website pages using semantic HTML.
- Styled the site with CSS and SASS to create a clean, user-friendly interface.
- Collaborated with team members and managed code versions using GitHub.

Algorithm Project(Python): Video Downloader & Editing Application
Role: Team Member | 18th Nov 2024 – 2nd Dec 2024
- Built tools to download, cut, and join videos.
- Made a simple user interface with tkinter.
- Worked with the team using Git and fixed bugs to keep the program working well.

JavaScript Project
Role: Team Member | 13th Jan 2025 – 27th Jan 2025
- Added product search, filters, and shopping cart to an online store.
- Made sure the website worked well on phones, tablets, and computers.
- Checked user inputs and helped fix errors to make it easier to use.

Virtual Company I (VC1) Project – Coffee Shop POS System
- Role: Backend Developer & QA Manager | 10 Mar – 28 Apr 2025
- Helped build and test the system for handling coffee shop sales.
- Used PHP and MySQL to work on the backend – saving orders, payments, and stock data.

LANGUAGES

- Khmer: Mother tongue
- English: Intermediate

Company Visit

- Amret
- Total Engergy (03th April 2025)
- Bikay (30th April 2025) & Solution Bi (30th April 2025)

TOOLS

- Figma
- Git
- Visual Studio Code
- Jira

CONCEPTS

- OOP
- Algorithm
- MVC Pattern

- Wrote and tested database code to make sure everything worked well.
- Found and fixed errors to make the system run better.
- Worked with the team to connect the backend with the frontend.

TECHNICAL WORKSHOPS

Product Owner Workshops

- Dates: January 18 & 25, 2025
- Facilitator: Felix Leuker (Senior Digital Project Manager)
- Focus:
- Session 1: Introduction to the Product Owner role responsibilities, tasks, and project impact.
- Session 2: Hands-on practice in gathering requirements, writing user stories, and using Jira.

UX/UI Design Workshops

- Dates: February 7 & March 14, 2025
- Facilitator: PJ (UX/UI Designer, Sourcemax Asia Co., Ltd)
- Focus:
- Session 1: Translate project requirements into prototypes, mockups, or wireframes.
- Session 2: Apply design logic with hands-on experience in a mini project.

Data Analytics Workshop

- Date: March 19, 2025
- Facilitators: Felix Leuker & Solution BI Staff
- Focus: Learn data preparation and visualization using Python and Power BI, transforming raw data into meaningful insights.

Project Management Workshop

- Date: February 8, 2025
- Facilitator: Felix Leuker (Senior Digital Project Manager)
- Focus: Understand key roles like Product Owner, Scrum Master, and Development Team. Learn how these roles collaborate using tools like Jira, Git, and GitHub, and explore essential concepts such as user stories and agile workflows.

INTERESTS

- Reading book
- Coding Researching
- new technology
